### APOLIS TEA: \$15 each

**About The Company:** *Apolis Tea is us: Audrey & Alex. We first met in Alaska 15 years ago, where we both grew up. We both liked adventure and the look of each other. Thirteen years and a couple of kids later we started Apolis Tea. During our combined 25 years in the tea industry, we've learned a lot about tea. We've also learned the importance of developing long-term relationships you can rely on. This means we have some old-fashioned ideas about being prompt, available, and reliable. Every business has a reason for being, a purpose that guides its decisions and ultimately defines it. Ours is craftsmanship. Our craft is in the art of blending and the science of sourcing teas and ingredients. Our producers are craftsmen and women as well; together, we work to create noteworthy teas you will get excited about. The history of tea is as much about innovation as it is about tradition. We are always looking for new ingredients and sourcing from producers who work with interesting cultivars and use biodynamic or organic farming techniques. We promise that every tea holds true to tradition but also brings a little something special. We hope to hear from you soon. A + A Location: Sumner, WA (Women Owned Business)*

*\*\*Jars are powder coated glass mason jars and contain 15 compostable tea bags\*\**

### **Iced Tea:**

*Flavor: crisp, juicy berries.*

Yunnan for the body, Ceylon and Darjeeling teas for the tart, juicy high notes. Cold brew to bring out a subtle berry-like flavor. Such a refreshing tea, it barely needs sugar, but sugar does bring out a little more of the fruity flavor.

## [BIG SPOON NUT BUTTERS: \\$8.00 Half Jar, \\$15.00 Jar](#)

**About The Company:** *Big Spoon Roasters makes handcrafted nut butters and wholesome snack bars from scratch in Hillsborough, NC. Uniquely fresh, delicious, and nutritious, each small batch is made to order with the best possible ingredients sourced directly from local and like-minded producers.*

### **Flavors We Carry:**

**Classic Almond Butter:** The heirloom Mission variety almond, discovered in Texas in 1891, derives from a single chance seedling. Literally a late bloomer with smaller, denser buds and shorter, darker kernels than more popular and "attractive" varieties such as Nonpareil, Mission almonds like a longer, slower roast time and offer a deeper, more concentrated flavor. We think Mission almonds are perfect for almond butter, and we hope you agree! Made only with freshly roasted and milled Mission almonds blended with raw organic wildflower honey and sea salt, our flagship almond butter is intentionally simple and straight-up delicious.

**\*\*Contains Coconut, Peanuts, and Tree nuts\*\***

### **Hot Mamba Nut Butter: Half Jar**

A customer favorite at every public tasting event, Sweet Heat is an homage to the spicy peanut butters of Haiti and the greater Caribbean. Like hot honey and pepper jelly, this recipe offers the fun interplay of sweetness and heat that will keep you coming back for more. Formerly called "Hot Mamba," we renamed it in March 2024 so the name would more accurately reflect the flavor profile. Sweet Heat Peanut Butter blends fresh-roasted High Oleic Cordobon peanuts, dried Guajillo, Ancho and Habanero chiles, raw Organic cane sugar, and Jacobsen Sea salt.

**\*\*Contains: Coconut, Peanuts, and Tree nuts\*\***

### **Maple Cinnamon Nut Butter:**

As Southerners, we have fond memories of pecan pie at every holiday dessert table. We aimed to recreate that cozy holiday-in-a-spoon feeling in our Maple Cinnamon Peanut & Pecan Butter - less syrupy-sweet, more perfectly balanced. Our Maple Cinnamon Peanut & Pecan Butter combines fresh-roasted, coarsely milled peanuts and pecans with Vermont maple syrup, Vietnamese "Saigon" cinnamon, and hand-harvested sea salt to create an uncommonly delicious, aromatic nut butter reminiscent of (a little cozier version of) that nostalgic dessert.

**\*\*Contains: Coconut, Peanuts, and Tree nuts\*\***

### **Toasted Coconut Almond Butter:**

If you're feeling like a quick vacation - or maybe just craving a homemade coconut macaroon - Toasted Coconut Almond Butter is all that in a spoon. House-toasted coconut and sweet almonds combine for a match made in tropical heaven. Our Toasted Coconut Almond Butter is handmade from fresh-roasted heirloom Mission variety almonds, crispy toasted coconut flakes, raw organic coconut crystals, and hand-harvested sea salt to create a decadent, naturally sweet, irresistible nut butter. Ingredients: Heirloom Mission Almonds, House Toasted Coconut, Raw Organic Coconut Nectar, Jacobsen Sea Salt

### **Vanilla Caramel Almond and Cashew Butter:**

Caramel. Just the word can stir one's cravings for something warm and buttery. This gorgeous nut butter is chock-full of Organic cashews, heirloom Mission almonds, Organic maple syrup, Organic coconut nectar, vanilla, and a touch of Jacobsen Sea salt for a combination that's all things indulgent, comforting, and downright delicious. Plus, our duo of maple syrup and coconut nectar marry to create a rich and toasty caramel taste that's 100% vegan and free of refined sugars, so the only thing you need to worry about is how quickly you can get your next jar. Ingredients: Heirloom Mission Almonds, Organic Cashews, Organic Maple Syrup, Organic Coconut Nectar, Vanilla, Jacobsen Sea Salt.

### **Carrot Cake Nut Butter:**

Made with lightly toasted English walnuts, heirloom Mission almonds, cinnamon, nutmeg, allspice, maple syrup, and Jacobsen Sea salt, Carrot Cake Almond & Walnut Butter is like decadent, spreadable carrot cake in a jar, but it's vegan, has no refined sugar, and contains only heart-healthy fats. We recommend adding this nut butter to creamy overnight oats made with tart yogurt and topped with carrot shreds for the full carrot-cake experience.

**\*\*Contains: Coconut, Peanuts, and Tree nuts\*\***

### **Chai Spice Nut Butter:**

Our chai spice mixture is a traditional Masala Chai blend of cardamom, cloves, ginger, cinnamon, vanilla, and black pepper, which we slowly mix with fresh-roasted, freshly milled peanuts and almonds before adding touches of raw, organic cane sugar, raw organic wildflower honey, and sea salt to create a bright, complex burst of flavor in every spoonful. True story: our founders Mark & Megan created this recipe for their wedding, and it's been a bestseller ever since.

**\*\*Contains: Coconut, Peanuts, and Tree nuts\*\***

## Chocolate Sea Salt Nut Butter:

Our Chocolate Sea Salt Almond Butter blends freshly milled, fresh-roasted heirloom Mission variety almonds with organic dark chocolate from TCHO, cocoa nibs from Videri, raw wildflower honey, and a touch of Jacobsen Sea salt to create a toasty, luscious dark chocolate almond butter with the perfect amount of crunch. This is the definitive chocolate lover's almond butter, made for warm slices of toast, tart raspberry jam, and your biggest spoon.

**\*\*Contains: Coconut, Peanuts, and Tree nuts\*\***

## CARAMEL KITCHEN CARAMEL SAUCES: \$14.00 Each

**About:** *We are a family-owned business specializing in all-natural, handcrafted caramel sauces. What started as a hobby, (making 6 jars at a time on our kitchen stove), has now grown into a full-time business, producing over 600 bottles a day. Using only copper pots, we make our caramel sauces the traditional way, using only cane sugar, cream, butter, sea salt, and vanilla. We are known for our caramel sauces because they are amazing! But what's even more amazing are the women who help run our shop, all residents, and graduates from our local Union Gospel Mission's Life Recovery Program. It's a blessing to be a part of their continued restoration and is the heart behind our excitement to make caramel every day. Using simple, pure ingredients without corn syrup, preservatives, gluten or nuts, our caramel sauces are authentic and rich in flavor, just like caramel was meant to taste. Combined with our beautiful and functional packaging, an extraordinary taste experience is just a simple squeeze away—making Caramel Kitchen a unique and amazing gift for any occasion.*

## **VALERIO COFFEE: whole bean bags \$17.00 each**

**About The Company:** *We believe this little coffee business is a gift and is here to do more for all the people it touches, not just our team of coffee loving people, but their families and the families of the growers, importers, and shippers. It takes a lot of people to get that coffee bean into a cup of coffee and into your hand. Yes, of course, you know in that Valerio bag is 100% Certified Organic Coffee, but did you know that we have many years of sourcing experience and special long-standing relationships with growers, cooperative farming groups and importers? They know our quality standards, wants and needs. They know we only source high grown specialty coffee with a distinct taste characteristic. Our coffee is bought from many different regions of the world. Did you know we look for small farms and co-operatives who are not only growing really good Organic coffee but who's coffee is also certified Fair Trade? This means we pay more per pound so extra funds go into a Community Development Fund where cooperative farm members democratically decide how to use these funds in their local community to improve their lives and meet their unique social, environmental, and economic needs that are not being met by the local government or financial sector. That in itself makes a Valerio bag an even more great tasting, 100% Organic coffee. Fun fact! Valerio Coffee is small enough to find and roast unique coffee, but is also a large enough company to be regulated by the FDA and the Department of Agriculture, and get visits often? We hope that you find comfort in knowing that not only do we want to operate with the highest of production standards, but we are required to. Yes, small roasters just starting out have no one watching and assuring the high requirements of the FDA and Pennsylvania Department of Agriculture. Freshness guaranteed! Our roasted coffee is shipped fresh within 72 hours of an order being placed. Batch numbers are on all roasts and are tracked using profile technology. This assures you that steps are taken to enhance the quality of our coffee. We also ensure the responsible management of carbon emissions. Our roasters, though not large enough to be required, are connected to an afterburner, minimizing any smoke into the atmosphere. We believe it is our responsibility to do what we can so that our planet is able to grow coffee for generations and years to come. Thank you for your purchase of Valerio Coffee, you are helping many people one cup at a time. Sincerely, Anthony Valerio*

## Mexican Dark Roast

This Mexican Coffee comes from a cooperative of fair-trade organic farmers in the Chiapas region of Mexico. Chiapas is my favorite coffee growing region and this group of 110 women and 480 men pay attention to every detail and cultivate about 1600+ hectares. The bright acidity and medium body put this one into the well-balanced category. This coffee roasted dark brings out noticeable notes of hazelnuts and cardamon.

## Guatemalan Medium Roast

Guatemala coffee is special. A complex and amazing well-rounded coffee due to a diverse microclimate and rich soil from the multiple volcanoes. A group of small-scale farms together work this land in the Huehuetenango region. We chose a medium roast for this coffee to bring out notes of dark chocolate, plum and raisin.

What started as an occasional booth at a local farmers market has rapidly turned into a successful business - featuring in over 200 stores, farmers markets, and events annually. Aiming to showcase the natural, vibrant flavors of fruits and vegetables native to the Northeast region, Small Batch Kitchen makes it their mission to work alongside the small-scale local farmers of their greater area - to not only honor these plants, but to honor the people who grow them as well. ## **Messner Bee Company**

**About The Company:** *We are husband and wife beekeepers! We started keeping bees as an addition to our urban farm in 2012 and quickly fell in love with everything about the process. After a few years we used our stored beeswax and raw honey to make lip balm. It quickly took off and Messner Bee Farm is now a full-time business with a production area and apiary. We currently have a mobile store on our Trolley named Beatrix! We feel privileged to be a part of the making process start to finish beginning with the bees building beeswax and gathering nectar in the spring. Beekeeping is endlessly interesting and challenging – a real labor of love. We harvest the wax and honey in late summer and use the supplies to make our lip balms. We produce all of our balms in small batches and hand pour them to insure the best quality and craftsmanship. We take pride in providing something that is natural, useful and supports our favorite pollinators!*

*\*\*Creamed honey is thick and spreadable. There is no dairy involved - it's called creamed honey because of its light color and smooth buttery texture. Creamed honey is also known as whipped honey, honey butter, or spun honey\*\**

## Hunter and Gather Dry Foods

**About The Company:** *Hunt & Gather Dry Foods is a small batch food and drink company, focusing on old world food preservation techniques including dehydration and conditioning. We first created our special variety of fruit chips and granolas before expanding into cocktail infusion kits and sun tea in late 2018. I started in Cottage food at local markets and was even able to grow my business through the pandemic. In 2021 we moved into our kitchen and continue to grow. We use unique flavors and ingredient blends to create an assortment inspired by our childhood favorites with playful and creative takes on traditional recipes. I grew up in Fairbanks, Alaska. There the growing season is short, often people in the state do some sort of subsistence. Picking berries, fishing, hunting or foraging. To extend the shelf life often things are dehydrated, smoked or packed. All of these techniques are the old world way of preserving food. We pride ourselves in the old way. A longer process without the addition of chemical preservatives. The fruits have a long & sweet shelf life. Designed to be delicious, fun, and shareable! Great for gifts or simply treating yourself to something well deserved.*
